SUMMARY

Aspiring Web developer with a keen interest in front-end design and the creative aspects of web development. Dedicated to crafting visually appealing and user-friendly websites with a passion for innovative design, technical excellence, and a drive to continuously learn and improve. Seeking opportunities to actively participate in projects that provide a platform for creative expression within the field of front-end development.

WORK EXPERIENCE

Web Developer | Amber Aviation, Melbourne | 2020 to 2021

Amber International Aviation is dedicated to delivering the highest caliber pilot license flight training in a secure and enjoyable setting, fostering the development of adept pilots and flight instructors who go on to achieve successful and rewarding careers in the aviation industry.

Duties and Responsibilities:

- Collaborated effectively within a cross-functional team, showcasing strong communication skills within an eclectic group of people.
- Managed the development, maintenance and design of several applications including Amber Aviation's engineering and pilot training websites.
- Monitored and altered social media based upon current trends to increase target audience engagement.
- Created a mobile responsive user experience with CSS flexbox which allowed for cross platform accessibility.
- Keep consistent with website alterations to maintain a quality user experience with PHP.

Website: Flight School & Pilot Training Melbourne (aiaa.edu.au)

Web Developer | General Assembly, Melbourne | 2020 to 2020

Undertook various projects under the General Assembly Bootcamp.

Duties and Responsibilities:

- Maintained websites under the principles of agile methodology.
- Developed applications utilising front end frameworks such as React.
- Built APIs using RESTful standards.
- Designed and integrated databases using MongoDB.
- Collaborated with the team to discuss and implement improvements for enhancing the user experience.

INTERNSHIP

Accenture Product Design Virtual Internship program | Forage | 2024

Participated in the Accenture Virtual Internship program through Forage in 2024.

Role Involved:

- Completed a simulation which focused upon product design and the manner in which this process might transform user experience.
- Created a product design mock-up in Figma.
- Added a new feature and iterated on an existing product screen.
- Communicated the decisions made for the future design.

CASUAL WORK EXPERIENCE

Barista | Sugardough, Melbourne | 2024 to 2024

Barista | Degraes Espresso, Melbourne | 2021 to 2023

Duties and Responsibilities:

- Attended to customers by taking orders and serving beverages, fostering a positive and engaging customer experience.
- Collaborated seamlessly with team members during peak hours, contributing to a smooth and efficient workflow.
- Enhanced customer satisfaction through attentive service and teamwork, showcasing adaptability in handling beverage orders from diverse group of customers.
- Demonstrated adaptability by efficiently handling high-volume periods.
- Oversaw and maintained store inventory, ensuring optimal stock levels and organised storage.
- Conducted training and development programs for staff members, fostering a skilled and cohesive team.

Personal Trainer | Goodlife, Melbourne | 2018 to 2020

Goodlife is a worldwide health and fitness club which aims to benefit its members through exercise and promoting a healthy lifestyle.

Duties and Responsibilities:

- Planned, designed, and implemented client specific exercise programs and nutritional guidelines.
- Utilised effective communication skills to identify and understand clients' fitness needs.
- Applied effective time management for detailed recording of clients' initial body status, enhancing precise progress monitoring.

PROFESSIONAL DEVELOPMENT

Participated in a 2024 Melbourne Tech Strategy Information Meetup to stay current on organizational tech strategy. Explored Arduino board control with Javascript in the realm of robotics at a Nodebots Meetup.
